Source des données : cadastre EDIGEO@DGFIP, 2021

Création : Cyanea Info Géographie

This is a detailed cadastral map of the NUCETA area. The map displays numerous land parcels, each identified by a unique number. A prominent red line outlines the boundary of the project area. A green line, which is dashed in some sections, delineates specific sections within the project area. These sections are labeled with letters: 'A' is located in the lower right, 'B' in the lower center, 'C' in the lower left, and 'D' in the center. The map also shows a network of roads and other geographical features. A legend in the top right corner explains the symbols for parcels and sections. Below the legend is a scale bar indicating 0, 50, and 100 meters, and a north arrow. At the bottom of the legend box, the source of the data is cited as 'cadastre EDIGEO@DGFIP, 2021' and the creator as 'Cyanea Info Géographie'.
